

North Atlantic Climate & Civilization

The 2019 Geodynamics Seminar Series

Tuesdays: 1:30 – 2:30 p.m.
Clark Lab 507, Quissett Campus, WHOI
(unless otherwise noted below)

SPEAKER SCHEDULE

| DATE | GUEST SPEAKER | PRESENTATION TITLE or TOPIC |
|---------------------------------------|---|--|
| Tuesday February 5 | Susan Lozier Duke University | <i>A 21st Century View of the North Atlantic Overturning Circulation</i> |
| Tuesday February 12 | David W. J. Thompson Colorado State University | <i>Why Do the Extratropical Storm Tracks Shift Upwards and Poleward Under Climate Change?</i> |
| Tuesday February 26 | David Hodell Cambridge University | <i>Atlantic Climate Change and the Collapse of Classic Maya Civilization (~800-1000 AD)</i> |
| Tuesday March 5 | Raymond Bradley UMass Amherst | <i>Norse Settlement Around the North Atlantic: History, Archeology and Paleoclimate</i> |
| Tuesday March 12 Carriage House | Jon Hare NOAA Fisheries Service | Fisheries |
| Tuesday March 19 | Jerry Mitrovica Harvard University | <i>Variability in North Atlantic Sea Level Change over the Last Glacial Cycle</i> |
| Tuesday April 2 | Suzana Camargo Lamont-Doherty Earth Observatory | <i>Atlantic Hurricanes: Past, Present and Future</i> |
| Tuesday April 9 | Stephanie Henson University of Southampton, UK | <i>Decadal Variability in North Atlantic Phytoplankton Blooms and the Biological Carbon Pump</i> |
| Tuesday April 23 | Hjálmar Hátún University of the Faroe Islands | <i>The Subpolar Gyre Regulates Ecosystems in the North Atlantic Ocean</i> |
| Tuesday April 30 | TBD | Coupled Atmosphere-Ocean Dynamics |
| Tuesday May 7 | Sam White Ohio State University | <i>Human Impacts of the Little Ice Age: State of the Field and New Research</i> |
| Tuesday May 14 | Joyce Chaplin Harvard University | <i>Words and Numbers: How Americans Described the Little Ice Age in their Almanacs</i> |
